Safety Data Sheet

1 Identification

GHS Product Identifier

Product Name: **Voges Proskauer Tablet 2**

Catalog Number: **K670**

Recommended use of the chemical and restriction on use

For invitro diagnostic use only by trained professionals.

Supplier's details

KEY SCIENTIFIC PRODUCTS, INC
1113 E REYNOLDS
STAMFORD, TX 79553

Telephone: 800-843-1539
325-773-3918

2 Hazard(s) identification

GHS label elements

Warning

Other hazards which do not result in classification

May form combustible dust concentrations in air.

3 Composition/information on ingredients

Description	CAS Number	EINECS Number	%	Note
Potassium diphosphate	7778-77-0	231-913-4	0 - 0.01	
Lactose monohydrate	10039-26-6		0 - 0.035	
Starch, from corn	9005-25-8	232-679-6	0 - 0.01	
Peg	25322-68-3	500-038-2	0 - 0.005	

4 First-aid measures

Description of necessary first-aid measures

EYES: Flush eyes with water as a precaution.

Ingestion: Never give anything by mouth to an unconscious person.
Rinse mouth with water.

Inhalation: If breathed in, move person into fresh air. If not breathing, give artificial respiration.
Consult a physician.

Skin: Wash with plenty of soap and water.

5 Fire-fighting measures

Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical or CO₂.

Specific hazards arising from the chemical

Carbon oxides

Special protective actions for fire-fighters

Wear self-contained breathing apparatus for firefighting.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Wear lab coat, gloves, and safety glasses. Avoid dust formation. Avoid breathing vapors, mist, or gas. Ensure adequate ventilation.

Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

Methods and materials for containment and cleaning up

Sweep up and shovel. Contain in suitable, closed container for disposal.

7 Handling and storage

Precautions for safe handling

Avoid contact with skin and eyes. Avoid dust and aerosol formation. Ensure adequate ventilation. Avoid inhalation of vapor or mist. The potential for combustible dust formation should be taken into consideration before additional processing occurs. Provide appropriate exhaust ventilation at places where dust is formed.

Conditions for safe storage, including any incompatibilities

Keep container tightly closed.

8 Exposure controls/personal protection

Control parameters

USA .ACGIH Threshold Limit Values (TLV):

High-polymeric carbohydrate material
CAS# 9005-25-8
TWA Control parameters 10 mg/m³
Not classified as a human carcinogen

USA .Workplace Environmental Exposure Levels (WEEL):

Polyethylene glycol
CAS# 25322-68-3
TWA Control parameters 10 mg/m³

Appropriate engineering controls

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of the day.

Individual protection measures

Eye/face protection:

Safety glasses with side shields conforming to EN166. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN (EU).

Skin protection:	Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.
Body Protection:	Impervious clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.
Respiratory protection:	Where risk assessment shows air-purifying respirators are appropriate, use a full-face respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

9 Physical and chemical properties

Physical and chemical properties

Appearance:	Form: powder Color: white
Odor:	No data available
Odor Threshold:	No data available
pH:	No data available
Melting point/freezing point:	No data available
Melting point:	No data available
Flash point:	No data available
Evaporation rate:	No data available
Flammability:	No data available
Upper/lower flammability/explosion limits:	No data available
Vapor pressure:	No data available
Vapor density:	No data available
Relative density:	No data available
Water solubility:	50 g/l
Partition coefficient (n-octal/water):	log POW: -1349
Auto-ignition temperature:	No data available
Decomposition temperature:	No data available

Viscosity: No data available

Explosive properties: Not explosive

Other safety information

Solubility in other solvents: No data available

Surface tension: No data available

Relative vapor density: No data available

10 Stability and reactivity

Reactivity

No data available

Chemical stability

Stable under recommended storage conditions

Possibility of hazardous reactions

No data available

Conditions to avoid

No data available

Incompatible materials

Strong oxidizing agents

Hazardous decomposition products

Hazardous decomposition products formed under fire conditions-Carbon oxides

Other decomposition products: No data available

In the event of fire: see section 5

11 Toxicological information

Toxicological (health) effects

Acute toxicity

LD50 Oral - Rat - > 50,000 mg/kg

Inhalation

No data available

Dermal

No data available

LD50 Intraperitoneal - Mouse - 6,600 mg/kg

LD50 Dermal Rabbit - > 20,000 mg/kg

Skin corrosion/irritation

Skin - Human: Mild skin irritation - 3 h

Serious eye damage

No data available

Respiratory or skin sensitisation

No data available

Germ cell mutagenicity

No data available

Carcinogenicity

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as known or anticipated carcinogen by NTP.

OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

Reproduction toxicity

No data available

Developmental Toxicity

No data available

Specific target organ-single exposure

No data available

Specific target organ-repeated exposure

No data available

Aspiration hazard

No data available

Additional information

RTECS: No data available

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

12 Ecological information

Toxicity

No data available

Persistence and degradability

No data available

Bioaccumulative potential

No data available

Mobility in soil

No data available

Other adverse effects

No data available

13 Disposal considerations

Disposal methods

Product

Contact a licensed professional waste disposal service to dispose of this material.
Offer surplus and non-recyclable solutions to a licensed disposal company.

Contaminated packaging

Dispose of as unused product.

14 Transport information

UN Number

DOT (US)

Not dangerous goods

IMDG

Not dangerous goods

IATA

Not dangerous goods

15 Regulatory information

Safety, health and environmental regulations specific for the product in question

SARA 302 Components

No chemicals in the material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313 Components

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimus) reporting levels established by SARA Title III, Section 313.

SARA 311/312 Hazards

No SARA Hazards

Massachusetts Right To Know Components
