

**WET SHRINGS** -place around the plate and allow to dry. Shringings shrink to a tight fit that protects and keeps the plate moist yet allows air permeation for the culture. Available for 100mm plates.

**288 each -BV400- CLEAR**  
**432 each -BV432- CLEAR**

**DRY SHRINGS**- Use hair dryer or heat gun to shrink immediately- no waiting for drying. Available for 150mm plates and smaller sizes as well.

**BH350-For 100 mm plates**  
**BH351- For 150 mm plates**

Sold in packs of 250 each.

Heat gun also available -

**BHNEG1**: Variable temperature heat gun is faster than a hair dryer. It will stand upright on its base or hang and is ideal for shrinking dry shringings.

**RS483**- Stretch tape: 1 inch wide and 36 yards long. Ideal for securing odd size plates such as 60mm mycology plates. Easily removes for quick access.
